

## Our Healthy Future SUMMIT

**A**fter a busy year gathering input from stakeholders, our vision for the future of care at Hamilton Health Sciences (HHS) is taking shape and we now need to imagine how that vision will integrate with the broader health system. To support this process, HHS is hosting a one-day summit on March 1, with an extensive representation of community service organizations from Hamilton and West Niagara invited to hear our draft vision and provide feedback. The summit will include discussions around the collaboration required to make our vision a reality, a ‘marketplace’ for ideas, and a workshop where we will co-create prototypes of new and innovative ways to organize healthcare services in our communities.

Engagement has been an important part of the *Our Healthy Future* planning process, and the summit will further contribute to these community conversations. It will be followed by more Community Conversation events and staff engagement initiatives in the coming months, leading up to the submission of our vision and master program to the Board of Directors in June 2016.

## Progress Report

Community conversations are an important part of *Our Healthy Future* planning, and our second Progress Report captures the discussion we had in fall 2015 and January 2016 with people who use the hospital system and with our community-based health partners. Check the report out [here](#) or find it online at [ourhealthyfuture.ca](http://ourhealthyfuture.ca)

## Share Your Ideas Online

Join in the conversation online and tell us what the idea of a “hospital without walls” means to you at [hamiltonhealthsciences.mindmixer.com](http://hamiltonhealthsciences.mindmixer.com)

## New for Staff

We have launched an *Our Healthy Future* intranet page with information just for staff. Check it out [here](#) to stay up-to-date on the latest news, events, and opportunities to share your feedback.

## Faces of OHF

Our new series “Faces of Our Healthy Future” features stories and videos from community members, HHS staff and physicians on what *Our Healthy Future* means to them. Follow Hamilton Health Sciences on Twitter ([@HamHealthSc](https://twitter.com/HamHealthSc)) to see all of the “Faces of OHF”. The stories and videos will also be shared on [ourhealthyfuture.ca](http://ourhealthyfuture.ca) and on the OHF intranet page. If you would like to share your ideas and become a Face of OHF, call us! (905) 521-2100 ext 75387
