

## PLANNING Our Healthy Future

### Our Healthy Future Newsletter – November 2016

---

#### What's New

**Technical assessments underway:** As work on Stage 1B of the master program continues, technical assessments are being done across HHS' five major sites to evaluate each building. These evaluations help us understand what capital investments will be necessary to maintain or grow our existing sites.

#### Upcoming Activities

**Fall 2016** - Technical assessments of buildings taking place

**Fall 2016** - Updated *Our Healthy Future* website

**Fall 2016/Winter 2017** - Blogs by HHS leaders on population health, the planning process, and our regional role

**Spring 2017** - Business case analysis and formation of working groups

**Fall 2017** - Engagement opportunities with staff, patients, and families to provide input on facility design

---

#### Breaking the Cycle of Crowded Hospitals

HHS President & CEO Rob MacIsaac explores how population health can lead to a healthier Hamilton in an article published in the Hamilton Spectator last month.

## *Growing and changing to provide the care our community needs*

The *Our Healthy Future* (OHF) initiative is a redevelopment planning process that began in spring 2015. As of June 2016 we developed a vision for our future model of care and the facilities we'll need to deliver that care. The vision was approved by the **HHS Board of Directors** and was then submitted to the **Hamilton Niagara Haldimand Brant Local Health Integration Network** and the **Ministry of Health and Long-Term Care** for review. We will be working throughout 2017 to complete and receive approval from the LHIN and Ministry of Health for each part of our Stage 1 submission.
